A splendid likeness of Mr. Thomas A. Davis, now in the show window of Messrs. Crane & Shafer, will be presented tomorrow evening to Limestone Lodge No. 36, K. of P., to be hung in the new Home of the Order in West Second street. Mr. Davis is one of the charter members and is known among the old-timers as the "Daddy" of Limestone Lodge. At the recent dedication of the new Lodge Building he was chosen to deliver the dedicatory address, at which time seven of the nine surviving charter members of the Lodge were present. The formal presentation of Mr. Davis's picture to the Order tomorrow evening will be made by Rev. F. W. Harrop.

some of them will be employed in the Northern States. In the South the Negroes will be visited by enumerators of their own race, as will also the whites by their own people. There also will be about 500 women enumerators. In point of numbers, New York will lead the list with 6,500 enumerators, while Nevada will close the procession with 85.

The results of the labors of this army of people will be published in twelve or fifteen large volumes.

The enumerators will want to know a good deal about you for the population volumes. They not only will insist upon knowing your sex, but will expect you to reveal your age, and will ask you to tell whether you are white, black, mulatto, Chinese, Japanese or Indian; whether you are married or single, and if married, how often; whether you are American or foreign born, and if the latter, that you give not only your Nationality, but your race and mother tongue. Then, if you are a woman, you are to tell how many children have been born to you, and, in any event, you are to tell all about your education, your parentage and your employment. All this information is to be for the general average and for the use only of one of the enumerators. He is sworn not to reveal any of the awful truths.

Under the statutes governing the work the entire enumeration must be completed within a month, and in the cities the work is limited to fifteen days. It is expected that some of the returns from the cities will be received as early as the first week in June, but the exact population of the entire country will not be determined before some time in September.

TAKING THE CENSUS

Great Ten-Year Count to Begin Tomorrow—Magnitude of the Work and Some of the Details

The work of taking the thirteenth census begins tomorrow, Friday, April 15th, and must be completed in two weeks in cities and in thirty days in all other areas.

The enumerators will wear a badge, inscribed "United States Census, 1910."

The law requires every adult person to furnish the prescribed information, but also provides that it shall be treated confidentially, so that no injury can come to any person from answering the questions.

The President has issued a proclamation, calling on all citizens to co-operate with the Census and assuring them that it has nothing to do with taxation, Army or Jury service, compulsory school attendance, regulation of immigration, or enforcement of any law, and that no one can be injured by answering the inquiries.

It is of the utmost importance that the census of population and agriculture in this State be complete and correct.

Therefore every person should promptly, accurately and completely answer the Census questions asked by the enumerators.

Director E. Dana Durand is counting upon a

roll of not fewer than 90,000,000 names. This estimate is based upon calculations of his experts, and makes allowance for an increase according to the tendencies shown in the last three previous censuses. Between 1870 and 1880 the increase in the population was 30%; between 1880 and 1890, 25%; between 1890 and 1900, 21%. If the decrease should continue at the same ratio there would be a falling off this year of the rate of gain to 17%. The immigration figures for the past decade have been greater, however, than for any of the previous ten-year periods. Making allowance for this augmentation from outside it is calculated that the increase for the past ten years will be about 18% and as, in round numbers, the figure for 1900 was 76,000,000, it is now calculated that there will prove to have been an addition of about 14,000,000 souls.

The mere getting of the information will cost the Government the pretty sum of \$5,500,000. Of this amount \$4,500,000 will be paid to enumerators, and the remaining million to supervisors. With a few exceptions the enumerators will be paid on the basis of the work done. In the country the remuneration will be from 20 to 30 cents for each farm reported, while the pay for names will range from 2 to 4 cents. The districts will average 1,300 names, 1,000 in the country and 1,600 in the cities. In the Southern States there will be two enumerators in each district, one white and the other black. All told, there will be about 1,500 Negro enumerators, but
